It's essential to looking your personal or professional best. And...you can wear nearly any clothing style attractively if you get a good fit. Clothes that fit require less care and attention. They look neater, wear better and last longer. A good fit eliminates gaps or wrinkles that advertise your figure flaws and fitting problems.

It allows others to focus positive attention on you, your face and your best points of interest.

Dress yourself in clothes that fit, clothes that slip easily over your body with room to move and you can forget about your body and your size and concentrate on more important matters.

You can get on with your life, secure with thoughts and feelings of self-confidence that come from knowing and feeling that your clothes are both comfortable and attractive.

Custom Sewing orders are written up on Estimate sheets and require a 35% deposit to schedule work date and fittings. Custom Sewing requires fittings for proper fit.
